DP 200 High-pressure Triplex pumps

cost-effective

compact

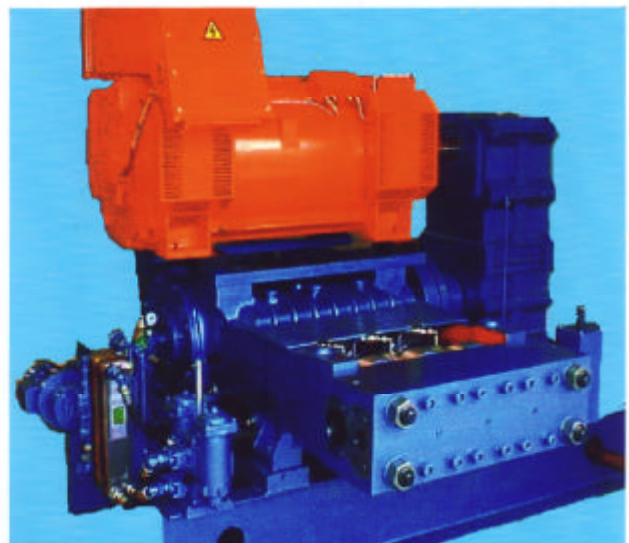

powerful

DP 212

Application Examples

- Press Drives
- Process Technologie
- Descaling
- Accumulator Stations
- Hydrostatic Bearings
- Boiler Feed
- Petrochemical Installations
- Chemical Plants
- Nuclear Power Plants
- Food Processing Industry

DP 212 Compact

Design Features

Compact, rigid drive housing with reduced vibration and noise.

Compact, pre-assembled piston-cylinder-unit for quick exchange.

For special applications custom designed valves, heating, cooling and flushing can be supplied.

Integrated aids for diagnostics.

Low maintenance drive with integrated lubrication.

Compact inline valve unit enabling quick and complete exchange.

Space saving due to compact power unit design.

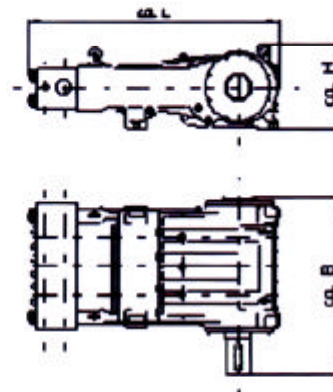

Selection Table

Typ		Nominal pressure	Pumping speed	Effective capacity	Weight
		bar	min ⁻¹	l/min	ca. kg
DP205	HD	320 - 630	207 - 657	19 - 64	470
	ND	- 320		39 - 195	500
DP207	HD	320 - 630	193 - 604	48 - 166	1150
	ND	- 320		91 - 400	1300
DP209	HD	320 - 630	165 - 522	100 - 445	1950
	ND	- 320		212 - 1050	2200
DP212	HD	320 - 630	148 - 471	233 - 1055	3300
	ND	- 320		456 - 2400	3700

Please ask for higher pressures and other speeds

Main Dimensions [mm]
